

FLAGS FLAGS FLAGS FLAGS

Every flag has a very specific instruction that must be followed by all drivers, without question IMMEDIATELY!

Green Flag: When first shown at the start-finish line, it indicates a clear track.

Yellow Flag-Motionless: Be prepared to Slow Down.
There is a dangerous condition on the course. The driver approaching the yellow flag is NOT TO PASS until he is past the next station without a yellow flag.

Yellow Flag-Waving: Slow Down and be prepared to Stop.
There is a serious or hazardous condition on the track directly in front of you. The NO PASSING rule is in effect.

Yellow with Vertical Red Stripes: This is a surface condition flag.
Take Care. Oil has been spilled or a slippery condition exists, or debris is present on the track. This flag is displayed standing. It could also mean that rain is coming up.

Red Flag: Upon first seeing the RED FLAG, you MUST STOP QUICKLY & SAFELY and pull to the edge of the pavement in sight of a corner worker. Wait for further instructions.

Blue Flag with Yellow Stripe: Check your mirrors as another driver is approaching for a possible pass.

White Flag: There is an emergency vehicle or slow moving car on the track.

Black Flag: The driver receiving the black flag is to complete the lap he is on and proceed to the grid for discussion of an infraction (possible mechanical problem or other reason).

Checkered Flag: The session is over. It does not mean brake. Continue your lap cautiously (cool down) and exit the track.

This is a non-timed/speed event.
